About CHICHIBU CHEMICAL

Established in 1990, we have engaged in the development and sale of plastic rainwater storage structure and their maintenance products. We are determined to hone in on our technical strength and new product development capabilities on the basis of knowledge and technologies we have cultivated so far to become a trustworthy company while proceeding with overseas development around Asia.

About JICA survey

In March 2019, JICA decided to conduct a survey called “SDGs Business Verification Survey with the Private Sector for Plastic Rainwater Storage Structure to Prevent Inundation Damage in Thailand (Project Period: 9th May, 2019 – 10th January, 2023)” under Japanese ODA scheme. Chichibu Chemical Co., Ltd. was selected as a contractor of the project, and installed PRSS (Plastic Rain Storage Structure) at the Latkrabang IE.

Reservation for hotel venue participation (Max. 80 participants) and More information

Ms. MAITANI Fumika (Chichibu Chemical Co., Ltd.)
